EXPERIENCE

2013 - Present
Online

Online - Learning

Always wanting to improve my skills, I learned most of the things I know from websites and practicing. I use online platforms like Codecademy, Udemy, but also on YouTube channels (Mackenzie Child, Codecourse, mmtuts, etc.)

2015 - Present
Local & Remote

Freelance - Web Designer

Working on some freelance projects such as: landing pages, app designs, and logos. Using softwares like Sketch, and the Adobe Creative Cloud.

01.06.17 - 31.08.17
Montreuil

ICI Montreuil - Internship

Creating some visuals, newsletters and taking care of the website and the social medias of the company and of HandMade ICI. Working with a team of many creatives and collaborating with them on several meetings.

2016 - Present
Local & Remote

Freelance - Front-End Developer

Developing some websites on my own, versioning the projects using Github. The websites are coded using languages such as PHP, ES6, HTML and CSS and some are available on my website.

2017 - Present
Montreuil & Remote

HETIC - School Projects

Working on side projects with some of my classmates using GitHub for versioning.
